## Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

**Purely Business!**  
The columns of a newspaper represent a cash value. No publisher can afford to give advertising "nothing" free any more than a merchant can give his customer free gifts of goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

**A FEW WORDS ABOUT OUR SHOES!**

When we concluded to handle Men's and Youth's Shoes quality was the first consideration in our purchase. As ranks in merit all our various lines, so will the merit of our shoes rank, too. Messrs. Smith & Stoughton, who made our shoes for us, say to us, "Your \$2 and \$2.50 Men's shoes excel all others at the price." They further say, "We made you a shoe to retail at \$3 that you can guarantee to wear equal to any \$4 shoe made in the U.S. We warrant every pair of them. The above-mentioned lines

**FAIR NOTES.**  
Some of the Attractions The Mayville Fair Offers to Patrons.  
The greatest festival of mercantile commodities ever presented to a Fair-going people will fill Mayville Fair Floral Hall for four days, September 22d to 25th. Not only are the local merchants interesting themselves to make each exhibit representing his particular line surpass any yet admitted before the human gaze, Mayville dealers as well as large manufacturing concerns will be in this van. First and foremost, the Standard Oil Company, followed closely by the Kimball Piano Company, two or three range companies, while other concerns are negotiating for space, all of which point to the magnitude of the enterprise which is limited only by lack of space.

**SOME FUN AHEAD!**  
There Will Probably Be Lively Times in Mt. Sterling Next Week.

The Winchester Democrat says when the Kentucky Conference of the M. E. Church, South, meets at Mt. Sterling next week one of the most important things to occupy the attention of that body will be the appeal of Rev. H. C. Morrison.

Two years ago Mr. Morrison went to Dublin, Texas, and held a "Sanctification" meeting, in spite of the protests of the Pastor and the Presiding Elder at that place.

This is contrary to the Methodist Discipline and charges were preferred against him in the District to which he belonged.

He was tried at Lexington, Presiding Elder John Reeves of Winchester officiating.

No charges affecting his Christian character or piety were made, but he was tried solely upon matters of Church polity.

He was expelled from the Ministry and the Church, and has appealed to the General Conference.

It is said there are 136 Preachers in the Conference nearly equally divided on the question of Sanctification.

For years direct action on it has been avoided by skillful management, and the outcome of the matter will be watched with interest.

KENTUCKY REPUBLICAN PLATFORM.

Adopted at Louisville, Aug. 19th, 1897.

Resolved, by the Republican party in Convention assembled—

First—That we reaffirm the principles of the Republican party as set forth in the platform adopted by it at St. Louis in 1860.

Second—That we endorse the Republican National and State Administrations, and especially commend the action of our present officers in their efforts to suppress mob violence and to preserve the financial credit of the state.

Third—We commend the action of the representatives of the Republican party in the passage of a tariff bill which will raise revenue sufficient to support the Government, prevent the issue of interest-bearing bonds, protect American labor and maintain the National credit.

Fourth—We are opposed to a system of civil service that builds up an official class with practically a life tenure in almost all branches of the public service, and we demand that the Civil Service Law be modified so as to limit the terms of service to four years, with the privilege of reappointment or promotion, subject to such restrictions as will secure competent officials and give to every section of the country its proper proportion of them.

Fifth—We heartily sympathize with the struggling people of Cuba in their efforts to secure liberty and independence.

Sixth—That we recommend to the people the adoption of the Constitutional amendment submitted by the last Legislature, allowing all cities and towns the privilege of regulating under legislative supervision the method of laying the taxes they impose on businesses for city and town expenses.

Seventh—We favor the passage of a law that will protect the laborers of Kentucky from the competition of convict labor, and, if necessary to accomplish said result, an amendment to the Constitution permitting such legislation.

"The best way to get rid of a bad law is to enforce it."—General Grant.

Therefore THE LEDGER favors the right enforcement of the Civil Service Law.

In 1850 there were but 75 miles of railroad in this state. Today there are over 3,067 miles. In 1860 the mileage of road was 534 and by 1880 it had risen to 2,942 miles. Since then the mileage, it will be observed, has increased but 125 miles. When it is stated that the railways of Kentucky paid last year into the State Treasury \$109,796.08 in the shape of taxes, it looks like it would be a good thing to have some more of them. Yet there are some people who don't want the Black Diamond system built.

OUR WASHINGTON MAN.

THE LEDGER'S SPECIAL LETTER FROM THE CAPITAL.

Special Correspondence Public Ledger.

WASHINGTON, September 10th, 1907.

With the month of September comes an awakening in the political campaigns in the various states and an increased interest in prospective results.

In Ohio, Iowa, Nebraska, Kentucky, Maryland, New York, New Jersey, and Massachusetts there are interesting elections, important in one way or another in their relation to National politics. In Ohio a Senator is to be elected by the Legislature to be chosen, in Iowa there is to be chosen a portion of the Legislature which will two years hence elect a successor to Senator Clear. In New Jersey a part of the Legislature which elects a successor to Senator Smith is to be chosen. In New York the political complexion of Greater New York City for an indefinite term is to be determined; in Maryland a Legislature which is to select a successor to S-nator Gorman will be elected. While in Nebraska and Kentucky the currency issue has drawn the line sharply between the flat biter and the Sound Money men of whatever former party.

Naturally, information from all these states drifts to Washington. Members of Congress and politicians come and go, and from them it has the best information on the situation as to their own states, and a consensus of the general situation may thus be formed.

That the outlook for Republican success is good everywhere goes without saying. That there is still danger to the party, however, in every state, is equally true.

Danger in every state? Yes. Danger in Ohio, in rock ribbed Iowa, in prospering bedeviled Nebraska, in Kentucky, Maryland, New York—everywhere.

Why? Because there is too much confidence. Because the Republicans are throwing up their hands and saying, "We've got it all our own way this time, boys."

Because there is danger that the belief that the farmers and the workmen are employed and happy is going to lead too many Republicans to neglect their duty.

That the drift is all in the direction of the Republicanism is true. That the people see that Bryan and his party made a deliberate effort to deceive them last year is undoubtedly the fact. But the Democrats are not asleep—they are active, vigilant, and they are conducting a silent but for votes that will surprise the Republican leaders unless they are awake and plan to arouse every man and get him enthusiastically into the fight. The tide is all running in the right direction, but this very fact is liable to lead to neglect on the part of some Republicans and to dissensions in the party ranks elsewhere. And in this there is danger.

From Ohio comes word that the Democrats are trying to run away from their platform, made only two months ago. That is not surprising, for silver has fallen 15 per cent. in value even in that short time. On July 10th one ounce of silver was worth in New York 90.6 cents. Now it is worth only 92 cents, and still falling.

No wonder that they are ashamed of their platform and want to get away from it when in two months after its enunciation the metal which it advocates as money falls 15 per cent. in value. That the Republicans of the state will not let them get away from it goes without saying—if they are wise. That they will swing the state now that they have the enemy on the run also goes without saying—if they are not too confident.

MARTLAND.

The factional fights in the Republican ranks being now over, there is good reason to hope that the party will fall into line, and with the aid of the Gold Democrats and anti-Gorman men, the fight for the Legislature. It is generally conceded in Maryland that Gorman, say whatever he will, would vote with the silver men in the Senate. This being the case, the Sound Money Democrats in the state are inclined to again co-operate with Republicans, as are also the strong element which can only be described by the term "anti-Gorman."

NEW YORK.

While the fight in New York relates to the Mayoralty, it is for a first Mayor of the second largest city in the world, and to determine whether or not Tammany shall control Greater New York. And if that splendidly managed political party does get control of that great organization, it greatly endangers Republican prospects in the entire state indefinitely. So it is probable that the Republican party in New York City will decide to support Seth Low, nominated by the "Citizens" organization. For, unless all those opposed to Tammany and Pro-silver combine on one man, they cannot win. By refusing to so unite they give Greater New York, and probably New York State, to the Tammany silver Democracy indefinitely.

tute resolution with the miners offer-

ed, and which was believed to be adopted

was under discussion. Two previous

resolutions providing for an

acceptance of the Pittsburgh

operators' proposition were defeated

because the Illinois, Indiana and West

Virginia miners did not think their

interests were sufficiently protected.

The substitute resolution, it is claimed

by the officials, gives the miners of

these states all the protection they

could reasonably ask since it provides

for a continuation of the strike wher-

ever the operators refuse to grant the

advance to their miners. However,

the officials are finding it extremely

difficult to convince the delegates,

opposed to a settlement, that they

are not the wrong. Secretary

Lewis, of Ohio, has been the most

active leader of the opposition and threat-

ened Friday night. If the national offi-

cial matter is not an issue, to

spring a sensation in the convention.

The national officials say, however,

that they have nothing to fear. The

substitute resolution to be voted upon

Saturday is as follows:

Resolved, That we endorse the

national executive board and the ex-

ecutive board and that work be resumed

on the basis of 65 cents in Western

Pennsylvania and a corresponding ad-

vance in all the districts of the com-

## BLOODY RIOT.

Deputy Sheriffs Attack a Body of Marching Miners at Latimer.

From Fifteen to Twenty Killed and Fifty or More Wounded.

After the first volley the infuriated miners scattered in all directions—some, however, kept on shooting at the ranks of the militia.

HAZLETON, Pa., Sept. 11.—The strike situation reached a terrible crisis on the outskirts of Latimer Friday afternoon, when a band of deputy sheriffs fired into an infuriated mob of miners. The men fell like so many sheep, and the excitement since has been so intense that no accurate figures of the dead and wounded can be obtained. Reports run from 15 to 20 killed and 40 or more wounded. A man who reached the scene Friday night counted 13 corpses. Four other bodies lie in the mountains between Latimer and Hazleton. Those who were not injured carried their dead and wounded friends into the woods and estimate is lacking.

Some of those known to be dead are: Mike Cheslow, Harwood, Frank Chela, Harwood, John Stanish, Crystal Bridges, George Kallish, Harwood, Steve Harwood. Among the injured are: Geo. Kresch, Harwood, bullet through leg, hip and knee; John Berlovich, shot in neck; Andrew Shabolich, shot in breast; John Kallish, shot in stomach; John Hanesch, shot in both legs; George Veresch, shot in both legs; John Fort, shot in head, with legs; John Cheslow, shot in head; John Dulla, shot in breast; Jacob Katsch, shot through body, will die; Steve Erakich, shot in body; John Kall, shot in body and left arm; John Kall, shot through back; John Tachle, a deputy, shot in arm. Three bodies were found Friday night on the road near Latimer.

The strikers left Hazleton at 3:30 o'clock Friday afternoon, announcing their intention to go to Latimer. As soon as this became known a band of deputies was loaded on a trolley car and went whirling down the road to the scene where the bloody conflict followed. After reaching Latimer, they left the car and formed into three columns and went straight on to meet them.

The men threw stones and fired at the deputies in silence until he had once more fired the riot net. This finished, a loud murmuring arose among the foreigners and there was a rush toward the front. Perceiving this, the sheriff stepped toward them and in a determined tone shouted: "Stand back, you strike!"

"No, they were marching toward Latimer," said the sheriff. "Why, then, did you order the deputies to fire?"

"I did not order the deputies to fire," said the sheriff. "I only ordered them to stand back. The first time they did not, and then they fired. I gave no order."

"Why, then, did you order the deputies to fire?"

## AWFUL CRASH.

Head-End Collision on the Donover & Rio Grande Road.

At Least Forty People Were Killed, Burned and Wounded.

The first train under a car exploded, setting fire to the debris—Many Persons Were Killed, Some Burned.

NEWCASTLE, Col., Sept. 11.—The most disastrous railroad wreck that has happened in Colorado occurred at 12:15 Friday morning a mile and a half west of this town. A passenger train, owned by the Colorado Midland stock train, going east, wrecked both engines and several cars in both directions. Shortly after the collision the fire broke out in the ruins. The mail, baggage and express cars, smoldering, lay on the tracks. A tourist sleeper was burned. A number of passengers who were not killed outright but who were pinned in the wreckage and could not be extricated, perished in the flames. There were about 200 passengers. It is estimated that 35 persons were killed and many more injured, including a number of whom over six are likely to die of their injuries.

The train, which was on a curve or bend round a mountain, and there was no opportunity to avoid the wreck or even to slacken their speed. The surviving trainmen say the strike was not running fast, but the facts seem to be that both the passenger and freight cars, going in opposite directions, were on a bend for the passenger and 10 or 12 for the freight.

One report as to the cause of the accident is to the effect that Conductor Lutz, of the Colorado Midland stock train, made a mistake of ten minutes in leaving on the track when the Colorado Midland passenger train passed. New Castle, and that therefore he was chiefly responsible for the disaster. Engineer Ostrander of the stock train, however, either confirm or deny this report if he was alive, but it is believed he is dead.

The passengers in the stock train were the worst. Out of 20 people in that stock only six are now known to have escaped. It was confirmed and some may have escaped unnoticed.

As in similar accidents, the engine men are not to be held responsible. Engineer Ostrander went down with his hands on the lever.

Robert Holland, from the passenger train, was so badly hurt that he died at 12 o'clock. Engineer Gordon of the passenger train, although he is badly injured, was not killed. He was taken to a hospital in Denver.

Hines, the Midland fireman, was so badly hurt that the doctors who examined him said he had no chance of recovery. He was shockingly burned, but bore his pain bravely. James Keenan, the postal clerk, was killed. He was killed by the engine.

Two express messengers on the Rio Grande train were killed. Their escape was a thrilling one. They were James C. Foley and William S. Messenger, both of Denver.

"It is difficult to get particulars about the dead and injured, so great is the confusion. In addition to the above mentioned, the dead and injured are: Hartman, of Hershey, Ill., has both legs broken and can not live. His wife and two children were the first of the dead to be removed from the wreckage.

Miss Pearl Cornell, of Oregon, had her leg broken. This lady was returning to her father's home in Oregon. She was killed at Glen Falls, Ida., while on her way east.

At least two cars of stock were wrecked and the road strewn with dead animals.

The express car and its contents, of the passenger train, were entirely consumed by fire.

Prof. Higgins opened his school Monday with an enrollment of pupils, which is a very good showing for the District in the beginning of his school.

Some few feed sent to the hay stacks of H. V. Riggen Sunday night, consuming ten stacks or about 15 tons of as good hay as there was in the neighborhood, the value being estimated at over \$100. Should the feed have been caught we have no doubt a lynching bee might have been possible.

## AT ELECTRIC PARK.

### A Religious Revival Going On That Is Awakening Much Interest.

A large and appreciative audience was in attendance at the Electric Park last night to hear one of the most eloquent and practical sermons delivered in this section by Rev. John B. Worrall. He is a brilliant young Minister, and his sermon last night proved beyond doubt his capabilities in that line.

The meetings at the Park have been growing in interest, and tonight Mr. John B. Worrall will address the people.

Tomorrow morning at 9 o'clock will begin an all day meeting, to which everybody is invited. In the afternoon Rev. John B. Worrall, D. D. will preach, and one hour before the meeting all the Young People's Societies of the city will hold a meeting, while at the night service Rev. Worrall will preach.

Rev. Need has awakened a keen interest in our city, and it is hoped these meetings will prove successful. The services are only of a very short duration, and no one need experience any inconvenience. There should be large crowds out to all these meetings.

Everybody says so. Concise and Catholic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, acts gently and positively on kidneys, liver and bowels, cleansing the entire system, driving colds, cure headache, fever, habitual constipation and biliousness. ## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

## CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often by mistake attributed to female weakness or womb trouble of some sort.

The error is easily made and may be as easily avoided. To find out correctly, send your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy, is soon realized. If you need a medicine you should have the best. At drug stores fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention The Public Leader and send your address to Dr. Kilmer & Co., Binghamton, N. Y.
